AP 统计学

学习目标 Learning Objectives

本周课程结束后，学生应当能够：

By the end of this week, students will be able to:

- 在任意统计研究中识别总体与样本，并结合题目背景具体描述这两个群体。
- Identify the population and sample in any statistical study and describe both groups with specific context.
- 识别自愿回应抽样与便利抽样，并解释这两种抽样方式如何产生系统性偏差。
- Recognize voluntary response sampling and convenience sampling, and explain how these two sampling methods create systematic bias.
- 演示简单随机抽样（SRS）的实施方法，可以使用随机数表或图形计算器等技术工具完成抽样。
- Demonstrate how to select a simple random sample (SRS), either by using a table of random digits or technology such as graphing calculators.
- 能够设计分层随机抽样与整群抽样的抽样方案；清晰区分两种抽样方法，并分别写出每种方法的一项优势。

Design a sampling plan using stratified random sampling and cluster sampling; clearly distinguish these two methods and state one advantage for each method.

分析抽样调查中的各类偏差来源，包括覆盖不全、无应答、问题措辞偏差、应答者偏差与调查者偏差，解释每一项因素如何让调查结果高估或低估总体真实值。

Analyze different sources of bias in sample surveys, including undercoverage, nonresponse, question wording bias, response bias and interviewer bias, and explain how each factor may make survey results overestimate or underestimate the true population value.

课堂安排与学习重点 Class Agenda & Focus

本周我们将学习概率抽样与有偏抽样。课堂FRQ大题练习为礼堂调查例题。 题目背景回顾：学生会想要调查图书馆使用情况。集会期间礼堂共有800名学生，按年级分区落座。9年级：座位601–800；10年级：座位401–600；11年级：座位201–400；12年级：座位1–200。需要抽取容量为80的样本。

This week we will explore probability sampling and biased sampling techniques. Our in-class FRQ practice will be the auditorium survey problem. Scenario recap: Student council wants to survey library usage. There are 800 students seated by grade level in the auditorium during the assembly. 9th grade:

seats 601–800; 10th grade: seats 401–600; 11th grade: seats 201–400; 12th grade: seats 1–200. We need a sample of 80 students.

a)小问：分层随机抽样 我们以年级作为分层依据。同一年级内学生的图书馆使用习惯相近，不同年级之间使用习惯差异明显。我们将总共80人的样本平均分配至4个年级，每个年级抽取20名学生。在每个年级对应的座位编号范围内，利用随机数选出20个不重复座位编号。相比于同等样本量的简单随机抽样，分层抽样可以对学生观点给出更精准的估计。因为分层抽样保证每个年级群体都能被代表，减小抽样变异性。

Part (a): Stratified Random Sampling We use grade level as strata. Library use habits tend to be similar for students within the same grade, while library habits differ across different grade levels. We split our total sample of 80 evenly across the four grades: 20 students from each grade. Within each grade’ s seat range, use random numbers to select 20 unique seat numbers. Stratified sampling produces more precise estimates of student opinions compared with an SRS of the same sample size, because we guarantee representation from every grade group and reduce sampling variability.

(b)小问：整群抽样 将每一列纵向座位作为一个群。每一列（群）包含不同年级的学生，每一个群都可以代表总体。把所有列编号1至20，随机选出2个不同的列编号，对选中两列里全部学生进行调查，合计80人。

整群抽样比简单随机抽样效率更高。不需要在礼堂里寻找分散的80个独立座位，只需要给完整两列发放问卷，节省时间和人力。

Part (b): Cluster Sampling We use each vertical column of seats as a cluster. Every column (cluster) contains students from mixed grade levels, and each cluster is representative of the whole population. Label all columns from 1 to 20. Randomly pick 2 different column numbers. Survey every student sitting in these two full columns (total 80 students). Cluster sampling is more efficient than SRS. Instead of tracking down 80 scattered individual seats across the auditorium, teachers only need to hand out surveys to two complete columns, saving time and labour.

AP简答题（FRQ）Important Reminders for AP FRQ

概念辨析：偏差指系统性、持续性误差，不能简单描述为“结果不好、结果不准”。

分层抽样口诀：层内个体相似，层间差异大；每一层都要抽取样本。

整群抽样口诀：群内个体构成多样，群和群之间结构相似；抽到群就要调查群内全部个体。

答题时千万不要混淆分层抽样和整群抽样，术语使用错误会直接丢分。

答题必须结合题目场景，避免“样本不够好”这类笼统模糊的表述。

- Definition check: Bias means systematic, consistent error, not just random "bad or inaccurate results".
- Stratified sampling rule: similar within strata, different between strata. We take samples from every stratum.
- Cluster sampling rule: varied within clusters, clusters are similar to one another. We select entire clusters.
- Do NOT mix up stratified sampling and cluster sampling in your writing. Misusing terminology will cost points on the exam.
- Always answer in the context of the problem. Avoid vague statements such as "the sample is not good enough".

JLPT N2 Vocabulary Course
JLPT N2班 词汇课

本周的词汇课进入第4章节，主题为“旅行”，主要围绕交通和自然两个部分展开。课程设置主要分为三个环节。第一、学生分别对交通相关词汇和自然相关词汇进行发表；第二、老师对学生的发表进行点评和建议；第三、老师对这一章节的词汇进行补充、拓展、总结。

This week’s vocabulary class moves on to Chapter 4. The theme is “Travel,” and it focuses mainly on two areas: transportation and nature. The class is organized into three main parts. First, students give presentations on transportation-related vocabulary and nature-related vocabulary, respectively. Second, the teacher comments on the students’ presentations and offers suggestions. Third, the teacher supplements, expands on, and summarizes the vocabulary in this chapter.

课程设置旨在让学生更多的参与课堂，通过预习和发表加深学生对单词的印象，也给了学生可以去拓展与本课有关的、自己感兴趣的词汇的空间，加强联想和趣味性。最后通过老师的点评和补充，肯定学生的成果，延伸词汇的深层意义，达到进一步的深化和加强。

The course design aims to engage students more in class. Through preparation and presentations, it helps deepen students’ impression of the words and gives them space to

expand vocabulary related to the lesson that they are interested in, enhancing association and enjoyment. Finally, through the teacher' s comments and supplementary input, students' achievements are affirmed, the deeper meanings of the vocabulary are explored, and further deepening and reinforcement are achieved.

Japanese Listening Course
日语听力课

本堂课是针对日语初学者进行的听力训练。主要分为两个板块：其一是结束上周的动物有关听力练习；其二就是进入日语对人的称谓的听力训练。

This lesson is a listening training session designed for Japanese beginners. It is mainly divided into two sections: the first is to finish last week’ s animal-related listening practice, and the second is to begin listening practice on terms used to address people in Japanese.

针对第一个板块，我们会先复习之前讲过的词汇，做一点简单的听力复健，最后会完成一个小测验以检验成果。针对第二个板块，我们会先对相关的词汇进行讲解，日语中对人的称谓会分一个谦称和一个敬称，会具体讲解它们分别是什么，以及在什么情况下使用。还会拓展一些在聊到家人时，可能会出现的一些常用表达。让学生熟悉这部分的词汇和表达，并做一些简单的初步的练习。

For the first section, we will first review the vocabulary covered earlier, do some simple listening warm-up exercises, and finally complete a short quiz to check the results. For the second section, we will first explain the relevant vocabulary. In Japanese, terms used to address people are divided into humble forms

and honorific forms. We will explain in detail what they are and when they are used. We will also introduce some common expressions that may appear when talking about family members, so that students can become familiar with this vocabulary and these expressions and do some simple preliminary exercises.

Exam Preparation Course
测试前准备课

本课程是围绕中级班后续参加考试展开的。本堂课主要是评讲国庆假期布置的真题试卷。计划精讲一下词汇的部分，不只是讲答案，还会对其余的单词进行补充和讲解。不只是老师讲，中间会穿插提问、抽查，检验学生对词汇的掌握情况，并且加深印象。讲完词汇之后，计划讲一部分阅读。主要针对训练做阅读的方式和思维，改变他们固有的，一定全篇读懂的做题方式，训练他们更多的可以从应试的角度去做题。

This course is designed around the intermediate class' s upcoming exam. This lesson mainly focuses on reviewing the past exam papers assigned over the National Day holiday. I plan to give a detailed explanation of the vocabulary section—not just going over the answers, but also supplementing and explaining the remaining words. It will not be only the teacher speaking; questions and spot checks will be interspersed throughout to assess how well students have mastered the vocabulary and to deepen their impression. After the vocabulary, I plan to cover part of the reading section. The main focus is to train students' reading methods and thinking, change their fixed approach of insisting on fully understanding the entire passage before answering questions, and train them to approach questions more from an exam-oriented perspective.
